

POLICE DEPARTMENT MONTHLY REPORT

July 16, 2014

July's report seems to be a copy of Junes. Thankfully we aren't seeing any trends in criminal reports. We are experiencing what seems to be a lot of people and activity in town.

As this report is a couple weeks late we are into July so several of the June and July events we were planning for are over.

Colorado Bike Tour came and went June 21st thru 28th without issues. The closure on East Virginia worked and their use of the Community School grounds for camping went well, as usual. They did elect to use the I-Bar property for long term parking. There were several vehicles that parked along the county road due to parking limitations and mud in the meadow used but no problems were reported.

July 4th was a success by most accounts. We experimented with stopping east and west bound traffic on Hwy 50 at the end of the fireworks to help get the side streets cleared a little faster. It seemed to work but we need to refine it a little more next year. There was a fireworks accident following the show. The person involved was clearing up undetonated fireworks when one went off wrong. The person was shaken up but not injured. At the debriefing meeting July 15 we discussed security and communications issues to address next year.

Cattlemen's Days went off without any significant concerns. Public works did a good job with getting the roads blocked for the parade and traffic was routed around without issues.

Planning is still taking place for the USA Pro Challenge. Meetings have been expanded to include emergency services in surrounding counties, weekly phone conferences in addition to local planning committees. The police department is continuing to work with GVAWL on their new shelter and working through issues related to vicious animals, length of holds, vaccination concerns, volunteer liability concerns, and updating the Municipal Animal Ordinances.

New state law went into effect July 1 concerning mandatory reporting for "Elder Abuse". The mandatory reporting identifies several categories of professionals and people due to their employment who are required to notify law enforcement if they know or suspect a person 70 years of age or older is being victimized, abused or neglected. Law Enforcement is among those mandatory reports but additionally the law requires law enforcement, the District Attorney and Social Services to report to each other and work together for prosecution. Captain Wilson attended an instructor training course in June and all sworn officers, records staff, Neighborhood Services and communications employees have gone through the training. Captain Wilson has also been contacted by the other agencies around Gunnison and will be assisting them with the required training.

The police department started directing traffic for I-Bar traffic in June. We are still evaluating and trying to work out a good traffic control plan. The permit issued for the private drive requires officer control when events are anticipated to be over 100 attendees. This leaves it open for not all events to require traffic control. We have also noticed that, at least in the beginning, 50 % of the traffic used the airport road. That is changing the longer the private drive is open. The owners are also continuing to work with the state to get the remaining work and signage on the road as required. The road is only supposed to open as an entrance and gated when not being used for an event.
